SUMMARY

BCA graduate with a Diploma in Cyber Security, possessing foundational knowledge in network security, vulnerability assessment, ethical hacking, and OWASP Top 10. Familiar with tools such as Nmap, Burp Suite, and Kali Linux. Seeking an entry-level Cyber Security Engineer role to apply technical knowledge and support organizational information security.

SKILLS

Core Knowledge

TCP/IP, Networking Fundamentals, OSI Model, Understanding of protocols (HTTP[S], DNS, SMTP, etc.), Operating Systems (Linux, Windows), Information Security Principles

Virtualization

VirtualBox, Genymotion

Soft Skills

Teamwork, Adaptability, Analytical Thinking, Attention to Detail, Problem Solving

Web App Testing

OWASP Top 10, Web App Security Basics, Burp Suite, OWASP ZAP

Security Tools

Burp Suite, Nmap, Metasploit, Sublist3r, Jadx, MobSF, Hydra

Security Domains

Vulnerability Assessment, Risk Assessment, Penetration Testing (Web, Network, Mobile)

Vulnerability Analysis

Manual Vulnerability Assessment, Vulnerability Scanners (e.g., Nessus, OpenVAS)

Security Testing Techniques

Metasploit Framework, Manual Exploitation Techniques (e.g., SQLi, XSS, File Inclusion)

PROJECTS

Android Application Penetration Testing Project — Manappuram OGL

01/2026

- Reverse engineered APKs for security analysis
- Tested API authentication & token handling
- Performed SSL pinning bypass using Frida

Subdomain-Enumeration

Github/munavirck

Built a Bash-based subdomain enumeration automation tool

- Reconnaissance

AI-Based College Navigation Application

- Developed an AI-assisted campus navigation application for route guidance and location assistance.
- Built using Python and Android technologies.

Web Application Penetration Testing Project-Synnefo Academy

Synnefo Academy

- Conducted security assessments on web applications to identify vulnerabilities related to authentication, session management, input validation, and API security.

- Developed proof-of-concept demonstrations for identified vulnerabilities.
- Conducted vulnerability scanning using Nessus.

INTERNSHIP

Cyber Security Intern	01/2026 – Present
<i>Synnefo Solution</i>	Kochi, Kerala
Performed vulnerability scanning and basic penetration testing. Conducted risk assessment and security documentation.	
• Vulnerability Analysis • Web App Testing • Exploitation • Reporting	

LANGUAGES

- English
- Malayalam

EDUCATION

Advanced Diploma in Cybersecurity	2025 – 2026
<i>Synnefo Solutions</i>	Kochi, Kerala
BCA	2022 – 2025
<i>University of Calicut</i>	Kerala

CERTIFICATIONS

- Advanced Diploma In Cybersecurity** — National Council For Technology And Training (NACTET)
- Certified Cybersecurity Foundations** — Hackviser
- Certified LLM Security Expert (CLLMSE)** — Red Team Leaders
- Mastering Pentest & Red Team Report Writing** — Red Team Leaders
